PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience analyzing complex healthcare and operational data to identify trends, solve business problems, improve processes, and support data-driven decision-making. Experienced in Excel, Power BI, SQL, Snowflake, Power Query, dashboard development, KPI analysis, data validation, and reporting automation. Proven ability to investigate operational challenges, identify root causes, develop practical solutions, and translate data into measurable business improvements.

TECHNICAL & ANALYTICAL SKILLS

SQL • Advanced Excel • Power BI • Power Query • Snowflake • Data Visualization • Dashboard Development • Data Cleaning & Validation • KPI & Trend Analysis • Reporting Automation • Data Quality & QA • Business Analysis • Root Cause Analysis • Process Improvement • User Acceptance Testing • Python • pandas • NumPy • Tableau

PROFESSIONAL EXPERIENCE

Baylor Scott & White Health | Reporting Specialist | May 2022 – Present

- Develop and maintain operational dashboards, KPI reports, and analytical tools using Power BI, Excel, SQL, Snowflake, and Power Query to support daily operations and leadership decision-making.
- Designed a Power BI Agent Performance Dashboard providing individual performance metrics that enable leaders and agents to monitor productivity, response performance, and improvement opportunities.
- Developed a Customer Service Line Dashboard used to monitor operational performance, service levels, call trends, and agent response.
- Produce and distribute approximately five recurring performance reports each week, supporting multiple lines of business with KPI, volume, productivity, service-level, and quality analysis.
- Provide analytics supporting North Texas (NTX) and Central Texas (CTX) operations, including major hospitals, 20+ scheduling groups, Prescription Refill (Rx), Revenue Cycle, and non-ECC business groups.
- Develop Rx reporting that helps operational teams identify high-volume order days and patterns to support workload planning and resource allocation; expanding Spanish-language performance reporting to identify service and workload opportunities.
- Investigated discrepancies in Emergency Line performance metrics and identified missing backline call activity across data sources; incorporated the additional data into reporting logic, improving abandonment-rate accuracy and providing leadership with a more complete view of operational performance.
- Query, clean, transform, combine, and validate data from multiple sources; perform root-cause analysis, automate recurring reporting processes, and translate stakeholder requirements into dashboards, KPIs, and analytical solutions.

Baylor Scott & White Health | Tier 2 Onboarding & Compliance Specialist | October 2021 – April 2022

- Analyzed onboarding and compliance workflows and validated employee data across SharePoint and PeopleSoft HCM to identify discrepancies and resolve complex system and process issues.
- Collaborated with HR, operations, employees, and technical teams to improve data accuracy, information flow, and timely issue resolution.

Burkes Outlet | Assistant Store Manager | September 2019 – August 2021

- Analyzed inventory workflows and implemented process improvements that reduced inventory-to-floor processing time from 5+ days to approximately 3 days while reducing staffing requirements from more than 15 employees to approximately 6.
- Managed and analyzed staffing, scheduling, sales performance, inventory, and operational KPIs to improve workforce allocation and daily store operations.

Applied Materials | Return to Stock Lead | December 2016 – September 2019

- Completed intensive technical and production training and developed a standardized workflow that was transferred to team members, helping increase production capacity from approximately 2 chambers per day to 4 chambers per day.
- Analyzed production workflows, bottlenecks, quality requirements, and resource needs; trained team members on standardized processes and coordinated resources to improve productivity and minimize downtime.

EDUCATION

Master of Science in Accounting | Kaplan University | 2014

Bachelor of Business Administration | Management Major, Marketing Minor | Texas State University | 2012
